Low Income Assistance and Energy Efficiency Programs

We have payment and assistance options that may work for you.

- **Energy assistance programs** help eligible customers pay their home heating costs with the help of various local, state, and federal agencies.
- **Weatherization assistance** and **energy-saving education** may also be available through your local community action agency.
- Let us pay you to conserve energy and lower your energy bills with **rebates** on qualifying natural gas appliances.
- You can take control of your energy bill by making small changes to your usage habits with these **energy conservation tips:**
  - Change or clean air filters once a month.
  - Repair all cracks in walls, windows, and doors that can let cold air in or heat escape.
  - Have the heating system inspected.
  - Liberty's My Account tool shows customers a breakdown of their energy use history. Better understanding your usage patterns can help you find ways to reduce usage and save.
